WORK EXPERIENCE

Child's Dream — Thailand · remote
Software Engineer (internship on site, now remote support) — June 2026 – Present

- Designed, built and launched an internal HR and volunteer management platform (React, Python REST API, PostgreSQL) with visa-support reporting, photo collection, reminders and document generation.
- Gathered requirements and feedback directly with non-technical staff in an international team.
- Prototyped fixes for the organization's Word and PowerPoint templates; continue to maintain and support the platform remotely.

FX Rails AG — Switzerland
Working Student, Marketing & Programming — September 2025 – April 2026

- Contributed to marketing and technology projects in the fintech and stablecoin space.
- Supported automation, data preparation and technical analyses, working closely with the founding team.

Bär & Karrer AG — Zürich, Switzerland
Accounting & IT Intern — November – December 2023

- Assisted with accounting processes and IT tasks.
